Testimonials

Angel Abraham, India

Strongly recommend this institution for all who aspire to be a CPHQ professional. Had a great learning experience for the past 3-4 months with interactive sessions & solving question papers and mock tests. Thenarasu Sir, a very dedicated teacher, makes sure that each concepts are made clear for his students. I wish all the best for RISI institute to reach many heights. Proud to be known as a RISI student!

Dr Reshma Shaikh, Mumbai, India

I had joined CPHQ review course with Raghava International statistical Institute (RISI) . Learning with RISI was a great experience. The faculty Dr.Thenarasu with his vast knowledge and experience in Statistics and HealthCare Quality puts his best efforts making each concept clear , interesting with practical approach. I thank Sir and team RISI for all the efforts they have taken for preparing our batch for CPHQ.I recommend RISI CPHQ reveiw course to all professionals who wish to learn the subject and prepare for CPHQ.

I rate RISi with 5 ★★★★★

Testimonials

Rincy Koshy, Saudi Arabia

RISI was introduced to me through my friend. Being a Nurse, Quality and its concepts were always challenging yet interesting. Dr. Thenarasu's passion for quality along with dedication has ensured that we understand the concepts of quality and critically think and perform as quality professionals. The study materials are very well prepared and reviews are very interactive. The tests and reviews are also well organized. This course will not only prepare you for CPHQ examination but would be a guide to be a professional quality personnel.. I would recommend everyone who is opting for CPHQ certification or learning Healthcare Quality to enroll for the training. Thank you Sir for all the efforts in inspiring all to improve healthcare. All the best wishes.

Dr Sowjanya, India

Before joining CPHQ, for me quality was NABH, JCI accreditations and team working for that. Being a clinician, I never used to bother much.

But after joining CPHQ, I have been enjoying the concepts so much that there is a complete paradigm shift in my thought process and realized "QUALITY IS WHAT OUR PATIENT NEEDS AND IT IS PATIENT CENTRIC AND NEVER ACCREDITATION CENTRIC".

Lilly Theresa, Saudi Arabia

I would recommend for anyone who wants to excel with quality, in life as well in work. Excellent presentations, fantastic teaching, fabulous explanations, great learning, most fascinating experience and cultivating the best and most positive culture attitude and sharing. May God bless Ragava international statistical institution and its collaborators ABUNDANTLY. May God prosper in all the endeavors.

Valar Varadharajan, Qatar

As a novice in quality management , Classes from RISI was helpful in understanding the basics of Quality and Data Analytics. Dr. Thennarasu Sir's classes were efficient and student focused. His continuous effort in creating handbooks, infographics ,focused module reviews and flashcards are much appreciated. One to one attention is given. Proud to be associated with RISI.

Dr Gowri Meera, Sri Lanka

I highly recommend RISI for CPHQ preparations. Dr. Thenna's class was incredible especially on Healthcare Data Analytics (HDA), one wouldn't find any better teacher than for him. In fact, HDA sounded very interesting when learning from him.

Dr. Thenna being a highly motivated person, his involvement gives much assistance to his students not only during class hours, but also individually; He is reachable all times throughout the course.

I hope Dr. Thenna's active spirit will continuously serve the community with much knowledge and guidance in healthcare quality.

I wish RISI and Dr. Thenna good wishes for the future.
